

Trucks Entering System

Street Smart Rental is raising the bar in the traffic safety industry again! Street Smart has developed a *Trucks Entering System* that is **AUTOMATED & REAL TIME, SOLAR POWERED** (no maintenance), **EASY TO DEPLOY** (mounted on industry standard trailers), and **REMOTE ACCESSIBLE** (for diagnostics and monitoring).

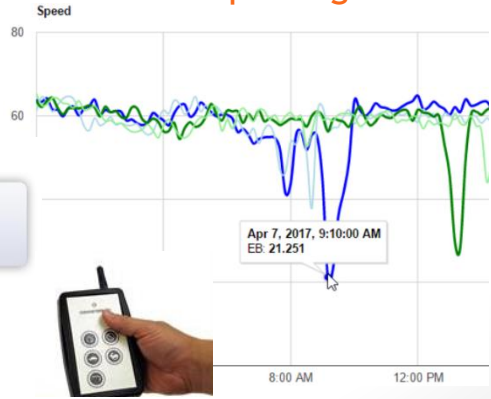

Improve Safety & Mobility

Trucks Entering System improve safety and mobility thru work zones. The system is designed to detect slow-moving vehicles (typically construction trucks) entering the highway, and will alert motorists (who may be travelling in free flow conditions).

FEATURES:

- Automated & Real-Time Solar Powered Trailers
- Remote Monitoring
- Multiple Options for Messaging
- Documentation & Reporting

OPTIONS

- Remote Activation
- Archived Speed Data
- Queue Alerts - Via Email or Text
- Custom Equipment Platforms
